

E62 executable Python factors — same-seed counterfactual proposal mechanism pilot
status=in_progress; control step=-1/384; E62 step=-1/384; verified proposal discoveries=0

● E60 mechanism control, seed 9011 ◆ E62 counterfactual proposals, seed 9011

Training sees one model-generated verified exemplar, never gold support, desired mode count, desired entropy, or evaluation feedback. Conditioned proposal rows sent to PPO: exactly zero.
